

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-35 (cancelled).

36. (currently amended) A lipid-bearing preparation for cosmetic uses, comprising an oil phase and a solid phase, wherein the oil phase ~~comprises~~ consists of a mixture of vegetable-base raw materials.

37. (currently amended) A lipid-bearing preparation as set forth in claim 36, wherein the vegetable-base raw materials are selected from the group consisting of vegetable oils, ~~hydrated~~ hydrogenated vegetable oils, vegetable waxes and mixtures thereof.

38. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the vegetable oils are selected from the group consisting of mango seed oil, meadowfoam seed oil, macadamia nut oil, shea butter, jojoba oil and mixtures thereof.

39. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the hydrogenated vegetable oils are selected from the group consisting of hydrogenated cottonseed oil, hydrogenated vegetable oil, hydrogenated castor oil,

hydrogenated coco-glycerides, hydrogenated jojoba oil and mixtures thereof.

40. (currently amended) A lipid-bearing preparation as set forth in claim 37, wherein the vegetable waxes are selected from the group consisting of ~~carnauba~~ carnauba, candelilla cera, Rhus succedanea, rice wax, sugar cane wax and mixtures thereof.

41. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable oils is in a range of between 1 and 65% by weight with respect to the total weight of the preparation.

42. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable waxes is in a range of between 0.1 and 30% by weight with respect to the total weight of the preparation.

43. (currently amended) A lipid-bearing preparation as set forth in claim ~~42~~ 37, wherein the content of hydrogenated vegetable oils is in a range of between 5 and 80% by weight with respect to the total weight of the preparation.

44. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable oils is in a range of between 5 and 45% by weight with respect to the total weight of the preparation.

45. (previously presented) A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable waxes is in a range of between 1 and 20% by weight with respect to the total weight of the preparation.

46. (currently amended) A lipid-bearing preparation as set forth in claim ~~42~~ 37, wherein the content of hydrogenated vegetable oils is in a range of between 15 and 50% by weight with respect to the total weight of the preparation.

47. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the vegetable-base raw material comprises a mixture of hydrogenated jojoba oil and meadowfoam seed oil.

48. (previously presented) A lipid-bearing preparation as set forth in claim 47, wherein the amounts of hydrogenated jojoba oil and meadowfoam seed oil are each in a range of between 2 and 35% by weight with respect to the total weight of the preparation.

49. (previously presented) A lipid-bearing preparation as set forth in claim 47, wherein the amounts of hydrogenated jojoba oil and meadowfoam seed oil are each in a range of between 5 and 25% by weight with respect to the total weight of the preparation.

50. (previously presented) A lipid-bearing preparation as set forth in claim 47, wherein the ratio of the amounts used of

hydrogenated jojoba oil to meadowfoam seed oil is between 1:2 and 2:1.

51. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the solid phase is selected from the group consisting of fillers, inorganic pigments, organic pigments and mixtures thereof.

52. (previously presented) A lipid-bearing preparation as set forth in claim 51, wherein the fillers are selected from the group consisting of talcum, kaolin, starch, modified starch, polytetrafluoroethylene powder, nylon powder, boronitride, Mg stearate, Ca stearate, Sr stearate, Zn stearate and mixtures thereof.

53. (previously presented) A lipid-bearing preparation as set forth in claim 51, wherein the inorganic pigments are selected from the group consisting of titanium dioxide, zinc oxide, iron oxides, chromium oxide, chromium hydroxide, ultramarine, ferric blue, mica, mica coated with titanium dioxide, mica coated with titanium dioxide and with metal oxides, bismuth oxide chloride, coated bismuth oxide chloride, metal powder in flake form of aluminum, brass, bronze, copper, silver, gold and mixtures thereof.

54. (previously presented) A lipid-bearing preparation as set forth in claim 51, wherein the organic pigments are selected from the group consisting of lakings of organic coloring agents with aluminum, barium, calcium, strontium, zirconium and

mixtures thereof.

55. (currently amended) A lipid-bearing preparation as set forth in claim 51, wherein the total combined amount of organic and inorganic pigments ~~are~~ is in a range of between 1 and 50% by weight with respect to the total weight of the preparation.

56. (currently amended) A lipid-bearing preparation as set forth in claim 51, wherein the total combined amount of organic and inorganic pigments ~~are~~ is in a range of between 5 and 40% by weight with respect to the total weight of the preparation.

57. (currently amended) A lipid-bearing preparation as set forth in claim 51, wherein the total combined amount of organic and inorganic pigments ~~are~~ is in a range of between 10 and 30% by weight with respect to the total weight of the preparation.

58. (previously presented) A lipid-bearing preparation as set forth in claim 55, wherein the pigments have particle sizes in the range of between 5 and 25 nm.

59. (previously presented) A lipid-bearing preparation as set forth in claim 53, wherein titanium oxide and/or zinc oxide used as light protection agent is present as nanopigments in an amount of between 5 and 25% by weight with respect to the total weight of the preparation.

60. (previously presented) A lipid-bearing preparation as set forth in claim 53, wherein titanium oxide and/or zinc oxide used

as light protection agent is present as nanopigments in an amount of between 5 and 15% by weight with respect to the total weight of the preparation.

61. (previously presented) A lipid-bearing preparation as set forth in claim 59, wherein the nanopigments are used in combination with oil-soluble UV-A- and UV-B-light filter substances.

62. (previously presented) A lipid-bearing preparation as set forth in claim 61, wherein 4-methylbenzylidene camphor and isoamyl p-methoxycinnamate are used in combination with the nanopigments as UV-A- and UV-B-light filter substances.

63. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the preparation is provided as at least one of lip rouge, blusher, lipliner, eyeliner, eyebrow pencil, eyeshadow, makeup, covering pencil, concealer, lip care pencil, lip balm, lip gloss, fixing foundation for the lips, care foundation for the skin and as sun protection agent.

64. (currently amended) A lipid-bearing preparation as set forth in claim 36, further comprising, as preserving a agent, at least one of vegetable-based preserving agents, natural perfumes, ~~perfumes which are identical to nature~~ and mixtures thereof.

65. (previously presented) A lipid-bearing preparation as set forth in claim 64, wherein the preserving agent is present in an amount of between 0.05 and 1.0% by weight with respect to the

total weight of the preparation.

66. (previously presented) A lipid-bearing preparation as set forth in claim 65, wherein the preserving agent comprises at least one of an oil-soluble dry extract of rosemary and glyceryl caprate.

67. (previously presented) A lipid-bearing preparation as set forth in claim 65, wherein the preserving agent contains perfumes which were selected from the group consisting of geraniol, linalool, neroli, vanillin, eugenol, methyleugenol, palmarosa oil and mixtures thereof.

68. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a stick glued into wood.

69. A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a cast into a plastic casing sleeve.

70. (currently amended) A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a stick, cast into a rotary spindle mechanism of a pencil.

71. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a paste introduced into a tube or a pot.

72. (previously presented) A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a paste introduced into a bowl of metal.

73. (currently amended) A method of producing a cosmetic pencil according to claim 36, ~~wherein a preparation~~ including shaping the preparation by casting to form a lead and further processed to form a pencil.

74. (currently amended) A method as set forth in claim 73, including casting the preparation into a rotary mechanism of a pencil to form a lead.

75. (currently amended) A method as set forth in claim 73, including casting the preparation into wood, glued and further processed to form a lead pencil.

76. (previously presented) A storage stable cosmetic mass comprising a combination of hydrogenated jojoba oil and meadowfoam seed oil.
